

## A Charming and Quaint Family Residence. Blackall

This residence has the charm to make you feel at home immediately you walk through this house. This little charmer of a house comes with polished floors, two bedrooms, kitchen, dining room, living area plus an office. The residence has the advantage of a two-sided wrap around verandah capturing those summer breezes. This is a tastefully decorated house. For the entertainer, there is a downstairs covered patio for family get-togethers. In addition, there is a two car garage and a cement floor workshop for the handyman. There is plenty of room for the kids to make use of.
